

## **Ties, Playoffs & Retrogression (2023)**

### **Playoff Holes: \***

The Committee will determine the playoff hole(s), and/or rotation of holes, until a winner is determined.

In case of a tie for the overall **Champions Cup** Team position and/or overall **Individual Champions Cup** divisions, there will be a playoff using a **Sudden Victory (Hole-by-Hole) Playoff**. The winner will be:

- **Team Competition**, a combined two-person team with the highest total points.
- **Individual Competition** will be the player with the higher point total.

All other divisions/ties will be determined using the following retrogression:

- The highest Point Total of the last 18-holes completed
- If there is still a tie, the highest Point Total of the last nine holes most recently completed back 9 holes, regardless of where a team/individual started,
- If there is still a tie, the highest Point Total of the last six holes most recently completed back 9 holes, regardless of where a team/individual started,
- If there is still a tie, the highest Point Total of the last three holes most recently completed back 9 holes, regardless of where a team/individual started,
- If there is still a tie, the highest Point Total of the last hole of the most recently completed round, regardless of where a team/individual started,
- If there is still a tie, the above process will be used for the front nine,
- In the extreme case of identical scorecards and point totals for all holes played, the a sudden victory playoff will be used, as listed above.
