SAVE ROUND

b. To track your score during a round:

- i. Click “Start a round” and enter your round details (course, tee, holes, players, and type game). Then click “Start Round”.

The screenshot shows the 'Start a round' screen in the Golf Canada app. At the top, there's a 'HOLES' section with three buttons: '18 holes' (highlighted with a red border), 'Front 9', and 'Back 9'. Below this is the 'COURSE RATING' section, showing 'Course Rating: 74.7' and 'Slope: 132'. The 'PLAYERS' section features a circular profile for 'ROBBIE' with 'HCP 19' and three red circular buttons with a '+' sign, each labeled 'ADD' below it. A small note states: 'Scores for other players will not be saved but can be shared electronically after the round is complete.' Below the players is an 'ACTIVATE GPS MAP' toggle switch, which is currently turned on. The bottom section is titled 'Games' and says 'Select between three different games.' It features a dropdown menu currently set to 'Stroke Play' with a right arrow. Below the dropdown, it says 'Presented by theScore | BET'. Further down, it says 'Powered by' followed by the Audi logo and the word 'Audi'. At the very bottom is a large red button labeled 'START ROUND' with a white icon of a golf ball and club.

- ii. After completing a hole, select “Enter Score” and adjust the “Total Strokes” field by using the “+” and “-” buttons. Once you’re done, click “Go to Next Hole” and repeat the process for each hole throughout the round.
